

REMARKS

Introduction

The specification has been amended to correct numerous typographical and other errors. Claims 6 and 24-30 have been canceled without prejudice, claims 1, 4, 5, and 7 have been amended, and new claims 31-33 have been added. Finally, amendments to sheets 6-12 of the drawings have been proposed.

The Amendments To The Specification

The specification has been amended to correct numerous typographical and other errors. No new matter has been added. The amendments to the specification are fully supported and justified by the specification and drawings as originally filed. More particularly, the amendments to the specification are justified and/or supported at least by the portions of the specification and drawings as set forth in the following table:

The Amendments To The Claims

Claims 6 and 24-30 have been cancelled without prejudice, and claims 1, 4, 5, and 7 have been amended in order to correct typographical errors and to more particularly define the invention. No new matter has been added. The amendments are fully supported and justified by the specification and drawings.

More particularly, claim 1 has been amended to incorporate the limitations of claim 6. Claim 6 has accordingly been cancelled. Claims 4 and 5 have been amended to correct typographical errors. Claim 7 has been amended to be dependent from claim 1 and correct typographical errors.

New Claims 31-33

New claims 31-33 are presented for the Examiner's consideration. These new claims are directed to subject matter that is fully supported by applicants'.

original specification and drawings. No new matter has been added.

More particularly, claims 31-33 included all of the limitations of claim 1 prior to the amendment made herein, and included other limitations that are discussed throughout the specification and drawings.

Applicants believe that new claims 31-33 are patentable over the prior art and, therefore, respectfully request that these claims be allowed.

Proposed Amendments
To The Drawings

Applicants have proposed amendments to FIGS. 5-11 on sheets 6-12 of the drawings in order to correct typographical errors and to clarify the figures in light of the specification. The proposed amendments to the drawings are indicated in red-ink on the attached copies of sheets 6-12 of the drawings for the Examiner's convenience. Pursuant to MPEP § 608.02(r), these amendments are also set forth in a separate Letter to Official Draftsperson which is being filed concurrently herewith. No new matter would be added by the proposed amendments to the drawings, and the proposed amendments are supported and justified by the specification.

More particularly, the proposed amendments to FIG. 5 are supported and justified by the specification at column 9, lines 34-39. The proposed amendments to FIG. 6 are supported and justified by the specification

at column 10, lines 22-35 and column 6, lines 58-59 (showing that "locked market" has different meaning than that intended in FIG. 6, which should have read "blocked market"). The proposed amendments to FIG. 7 are supported and justified by the specification at column 11, line 45 through column 12, line 6, and column 6, lines 58-59 (showing that "locked market" has different meaning than that intended in FIG. 7). The proposed amendments to FIG. 8 are supported and justified by the specification at column 12, line 56 through column 13, line 58. The proposed amendments to FIG. 9 are supported and justified by the specification at column 14, lines 44-58. The proposed amendments to FIG. 10 are supported and justified by the specification at column 15, line 61 through column 16, line 7. Finally, the proposed amendments to FIG. 11 are merely typographical and grammatical corrections.

Accordingly, applicants respectfully request that the proposed amendments of FIGS. 5-11 of sheets 6-12 of the drawings be approved so that corrected formal drawings may be filed.

Conclusion

Applicants submit that this application, including new claims 31-33, is in condition for allowance. Accordingly, prompt consideration and allowance of this application are respectfully requested.

Respectfully submitted,
